

HERE'S YOUR KEY  
TO A *Fascinating* NEW EXPERIENCE

*Mansfield*

## Photo Chem Lab The "All-In-One" Home Photographic Laboratory

- IT'S NEW—The Only Set of Its Kind
- IT'S ABSORBING—Full of Fun and Interest
- IT'S EDUCATIONAL—Improves Pictures
- IT'S COMPLETE and Thoroughly Practical

Unlimited pleasure—and a thorough knowledge of the techniques for making perfect negatives and prints—that's what you get in the sensational new Mansfield Photo Chem Lab. It puts at your fingertips all the information, all the basic chemicals, all the equipment you need to master the "how" and "why" of photographic chemistry . . . to make any developer from common M-Q to ultra-finegrain; to make pyro, glycin, amidol developers; fixing baths and shortstops; intensifiers and reducers; many other useful solutions. Includes interesting new-type 150-page Book, "SOLUTIONS," giving all basic principles on which quality work depends and complete FORMULARY. See this amazing set at your dealer—write us for his name.

### Home Study Course with Everything You Need to Master Photochemistry

20 CHEMICALS—Highest quality, tested chemicals including: Glycin, Metol, Amidol, Pyro, Para Phenylene-diamine base, Hydroquinone, Potassium Bromide, Sodium Sulfite, Sodium Carbonate, Potassium Ferricyanide, Potassium Permanganate, Mercuric Chloride, Sodium Sulfide, Potassium Alum, Chrome Alum, Sodium Bisulfate, Ammonium Persulfate, Sodium Hydroxide, Sodium Bisulfite, Hypo.

"SOLUTIONS For Your Photographic Problems by Mansfield"—A new, 150-page non-technical book with complete data on correct techniques, space for notes and mounting experimental prints, and up-to-date formulae.

ALSO: Laboratory Scale, 4 oz. Graduate, Cut Film, Litmus Paper.

STURDY COMPACT CASE—Opens and closes on hinge for convenient use and storage of chemicals and accessories.

**A \$25 Course in Basic Photographic Chemistry for only . . . \$11.95**
